Patient Satisfaction

2019 Outcomes Measures

PATIENT SATISFACTION

4.50/5.0 

I understand the importance of following my discharge plan.

I had input into my treatment plan goals.

I was satisfied with my physician.

I understand what my medications do and why/how I should take them.

I was encouraged to help myself and ask others to help me.

On a scale of 1-5 with 5 being "strongly agree." Scores are based on a percentage of positive responses from patients offering their opinion for the given timeframe.

Specialized Education Program

We take education seriously. Each patient is provided with a personalized learning plan designed to meet each patient where they are when admitted. The learning plans help patients prepare for a seamless transition back to their traditional school environment.

Through individualized instruction, patients have curriculum options that include direct instruction, remediation, credit recovery, online learning and post-secondary opportunities.

Since 2016, our youth have earned 30 GEDs and seven high school diplomas.
